# Shri Ram A U

AI Solutions Developer Intern at Saina Human AI | Software Engineering | Android, Next.js, Supabase
Greater Bengaluru Area

## Summary

I build and deploy end-to-end software systems rapidly, from responsive frontends to API integrations and machine learning architectures.My focus is on turning real-world requirements into production-ready web and mobile applications with zero friction. I leverage modern developer workflows and AI-accelerated tooling to build, test, and ship functional products at high speed.Core Technical Stack:Languages: Java, Python, C/C ++, JavaScript, Dart, SQLFrontend & UI: Next.js, React, Tailwind CSS, FlutterBackend & Architecture: REST APIs, Firebase, Supabase, System Architecture, Object-Oriented Design (OOP)Machine Learning: On-Device AI Models (LSTM architectures), Edge OptimizationI specialize in bridging the gap between engineering and business. I am highly effective at breaking down complex system architectures, cloud infrastructure, and technical constraints into clear, actionable plain English for clients, founders, and non-technical stakeholders.Currently pursuing B.Tech in CSE (Class of 2027). Open to Product Engineering, Full-Stack, and Software Engineering Internships with PPO pathways.

## Experience

### Saina Human Ai

AI Solutions Developer
October 2026 - Present (2 months)
Kochi, Kerala, India

Building and testing AI workflows, automation systems, and prototypes using AI models and APIs for internal and client-facing requirements.

Documenting development work and supporting delivery with the technical, creative, and business teams.

# Education

## Presidency University Bangalore

Bachelor of Technology - BTech, Computer Science · (October 2023 - May 2027)
